

HEALTH MATTERS

NHS App

Owned and run by the NHS, the NHS App is a simple and secure way to access a range of NHS services on your smartphone or tablet. Use the NHS App to:

- **get your NHS COVID Pass** - view and share your COVID Pass for event trials in England and travel abroad
- **get advice about coronavirus** - get information about coronavirus and find out what to do if you think you have it
- **order repeat prescriptions** - see your available medicines, request a new repeat prescription and choose a pharmacy for your prescriptions to be sent to
- **book appointments** - search for, book and cancel appointments at your GP surgery and see details of your upcoming and past appointments
- **get health advice** - search trusted NHS information and advice on hundreds of conditions and treatments. You can also answer questions to get instant advice or medical help near you
- **view your health record** - securely access your GP health record, to see information like your allergies and your current and past medicines. If your GP has given you access to your detailed medical record, you can also see information like test results and details of your consultations
- **register your organ donation decision** - choose to donate some or all of your organs and check your registered decision
- **find out how the NHS uses your data** - choose if data from your health records is shared for research and planning

Keeping your data secure

After you download the app, you will need to set up an NHS login and prove who you are. The app then securely connects to information from your GP surgery. If your device supports fingerprint detection or facial recognition, you can use it to log in to the NHS App each time, instead of using a password and security code. The NHS App is available now on iOS and Android. To use it you must be aged 13 and over and registered with a GP surgery in England.

How to Find your NHS Number

If you do not know your NHS number following this link: <https://www.nhs.uk/nhs-services/online-services/find-nhs-number/>. You will be asked your name, date of birth and postcode. A text, email or letter will be sent to you with your NHS Number.

North Street
Calne
Wiltshire SN11 0HH

NEC NEC Care

The NHS provides FREE eye screening for people with diabetes aged over 12 years old.

HAVE YOU ATTENDED YOUR DIABETIC EYE SCREENING APPOINTMENT?

Eye screening is an important part of your diabetes care. Retinopathy often has no symptoms until the disease is advanced. If left undetected, it can lead to blindness.

To book an appointment, call us on
01225 582 300
